An Advertorial, Health Promotional Feature

## ALL INDIA CRITICAL CARE HOSPITAL RANKING SURVEY 2019

Indian healthcare industry has witnessed tremendous growth in the last decade or so. Indian doctors have always been valued. However in the recent past, many world class hospitals were set up by many top corporates with best infrastructure to offer world class medical care in India. This has given major boost to medical tourism as many people from other countries found that they could get top class health care in India. Against this backdrop, many options have come up for patients. However, they

find it difficult to decide which hospital to choose for which ailment. It is in this context, OMS, a division of Times Group, took the initiative to start a system of ranking top hospitals in India in various specialties and thereby help people make informed choices. The rankings also serve as great motivation for various brands to further enhance their facilities and care, which leads to even better healthcare services in India.
